**Maple River Schools Google Chromebook 1:1 Program**

The focus of the Chromebook program at Maple River Schools is to provide tools and resources for the 21<sup>st</sup> Century Learner. Excellence in education requires that technology is seamlessly integrated throughout the educational curricula. Increasing access to technology is essential to build upon college and career readiness skills. The individual use of Chromebooks is a way to empower students to maximize their full potential and to prepare them for college and the workplace.

Learning results from the continuous dynamic interaction among students, educators, parents and the extended community. Technology immersion does not diminish the vital role of the teacher. To the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Effective teaching and learning with Chromebooks integrates technology into the curriculum anytime, anyplace.

The policies, procedures, and information within this document apply to all Chromebooks and other technology-able devices used at Maple River Schools considered by the Administration to come under this policy.

\*Teachers may set additional requirements for use in their classroom.

## 2. TAKING CARE OF YOUR CHROMEBOOK

Students are responsible for the general care of the Chromebook that they have been issued by the school. Chromebooks that are broken or fail to work properly must be taken to the Maple River Secondary School Media Center for an evaluation of the equipment.

### 2.1 General Precautions

- The Chromebook is school property and all users will follow this policy and the Maple River School District acceptable use policy for technology.
- Only use a clean, soft cloth to clean the screen, no cleansers of any type.
- Cords and cables must be inserted carefully into the Chromebook to prevent damage.
- Chromebooks must remain free of any writing, drawing, stickers, or labels that are not the property of the Maple River School District.
- Chromebooks must never be left in an unlocked locker, unlocked car or any unsupervised area.
- Students are responsible for keeping their Chromebook's battery charged for school each day.
- Chromebooks are very sensitive to extreme heat and extreme cold therefore leaving devices in cars, direct sunlight, etc. that may expose them to these conditions is potentially harmful to the device and should be avoided.
- Do not stack any books, heavy materials, etc. on top of the Chromebook as it could cause the device to break.

## 2.2 Carrying Chromebooks

The protective cases should have sufficient padding to protect the Chromebook from normal wear and tear and provide a suitable means for carrying the device within the school. The guidelines below should be followed:

- Chromebooks should always be within the protective case when carried.
- Some carrying cases can hold other objects (such as folders and workbooks), but students should refrain from adding any other materials to the carrying case to avoid placing too much pressure and weight on the Chromebook screen.
- Chromebooks must remain in a protective case or on classroom cart when not in use to prevent unintended damage.

## 2.3 Screen Care

The Chromebook screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not lean on the top of the Chromebook when it is closed.
- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth.
- Do not “bump” the Chromebook against lockers, walls, car doors, floors, etc as it will eventually break the screen.

## 3. USING YOUR CHROMEBOOK AT SCHOOL

Chromebooks are intended for use at school each day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars, and schedules may be accessed using the Chromebook. Students must be responsible to bring their Chromebook to all classes, unless specifically instructed not to do so by their teacher.

### 3.1 Chromebooks Left at Home

- If students leave their Chromebook at home, they are responsible for getting the course work completed as if they had their Chromebook present.
- If a student repeatedly (three or more times as determined by any staff member) leaves their Chromebook at home, they may be required to “check out” their Chromebook. “Checking out” identifies that the student will only be able to utilize the Chromebook during school hours. The Chromebook will be checked out in the morning from a central location and returned at the end of the school day to the same central location.
- After the first “check out” period, the Chromebook will be returned for student use at home. If this incident occurs again, the student may be referred to the principal.
- If a student leaves their Chromebook at home for two consecutive days, they may be required to bring in the device and have a inspection of said device.

### 3.2 Chromebook Undergoing Repair

- Replacement Chromebooks may be issued to students when they leave their Chromebooks for repair in the Media Center. Please note that there may be a delay in getting a Chromebook should the school not have enough to distribute.
- Replacement Chromebooks will only be issued for use in school until all fines have been paid.

### 3.3 Charging Your Chromebooks Battery

- Chromebooks must be brought to school each day in a fully charged condition. Students need to charge their Chromebooks each evening.
- Repeat violations (minimum of three days-not consecutively) of this policy will result in detention(s). Additional offenses will result in phone calls home and referrals to the principal.
- In cases where use of the Chromebook has caused batteries to become discharged, students may be able to connect their Chromebooks to a power outlet in class.

### **3.4 Photo Library/Screensavers/Background photos**

- Inappropriate media should not be on the device and may not be used as a screensaver or background photo.
- Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang related symbols or pictures or any other photos/videos deemed inappropriate by administration will result in disciplinary actions and may also result in a loss of Chromebook privileges.
- Photos/videos require a large amount of storage space on the device. Only photos that are for an educational purpose should be saved to the device. All other photos/videos should not be taken or stored.

### **3.5 Sound, Music, Games, or Programs**

- Sound must be muted at all times unless permission is obtained from the teacher for instructional purposes.
- Personal music is not allowed on the Chromebook. Any music on the device should only be added at the request and discretion of a teacher.
- Internet Games are not allowed on the Chromebooks. If game apps are installed, it will be by the direction of Maple River Schools staff only.
- All software/Apps must be district provided or requested in writing for school approval. Data Storage on the Chromebook is limited and should be managed by the students so that the full educational potential of the Chromebook is available. Any instance of downloading apps that have not been approved by the district are carefully monitored and will result in deletion of the program from the Chromebook device and disciplinary action.

### **3.6 Printing**

- Printing may not be available with the Chromebook. Students should talk to their teachers about printing options when needed.

### **3.7 Home Internet Access**

- Students are allowed to set up access to home wireless networks on their Chromebooks. This will assist students with the ability to complete, retrieve, access, etc. educational content used in classes with the Chromebook successfully.
- If parents/guardians are interested in providing content filtering at home, it is suggested that parents/guardians contact their Internet provider for details and support.

## **4. MANAGING YOUR FILES & SAVING YOUR WORK**

### **4.1 Saving to the Chromebook**

- Students may save work to their Google Drive accounts (or other cloud based storage medium) via the Chromebook.
- Storage space will be available on the Chromebook, but since the device has storage limitations it is vital that the storage space be privileged for educational use only. It is also important to note that Chromebooks will NOT be backed up by the district in cases of resetting or re-imaging.
- It is the student's responsibility to ensure that their work is backed up and therefore not lost due to mechanical failure or accidental deletion.
- Chromebook malfunctions are not an acceptable excuse for not submitting work.

### **4.2 Network Connectivity**

- The Maple River School District makes no guarantee that their network will be up and running 100% of the time. In the rare case that the network is down, the District will not be responsible for lost or missing data.
- Students will not be penalized if the network is down and a completed assignment can not be accessed for class projects, presentations, etc. as this type of network outage will affect all students and staff in the school building.

## 5. SOFTWARE ON CHROMEBOOKS

### 5.1 Originally Installed Software

- The Extensions/Apps originally installed by Maple River Schools must remain on the Chromebook in usable condition and be easily accessible at all times.
- From time to time, the school may add software applications for use in a particular course. Periodic checks of Chromebooks will be made to ensure that students have not removed required apps/extensions.

### 5.2 Additional Software

- Students may be allowed to load extra extensions/Apps on their Chromebooks. However, any apps that are not provided by the school will need approval in writing as mentioned in section 3.5 above. Maple River Schools will provide any required extensions/apps on the Chromebook. These apps/extensions will be available upon logging into the device using the official school approved email address.
- Any attempt to “jailbreak” the Chromebook or change the configuration may result in an immediate disciplinary action.
- Any software that breaks the Acceptable Use Policy or that is deemed inappropriate for use in school is not to be downloaded or installed on the Chromebooks. This includes, but is not limited to, music, games, videos, images, e-Books, and apps as noted in section 3.5 above. Immediate removal of material (or full reset of the device), contact with parents, and disciplinary action will take place.

### 5.3 Inspection

- Students may be selected at random to provide their Chromebook for inspection.
- Reasons for Chromebook inspection may include but are not limited to the following: functionality, maintenance, serviceability, and various violations of student acceptable responsibilities when using the Chromebook.

### 5.4 Procedure for Re-loading Software

- If technical difficulties occur or illegal software are discovered, the Chromebook may be restored from backup. The school does not accept responsibility for the loss of any software or documents deleted due to a need to reformat and/or re-image any device.
- Students are highly encouraged to create a backup of all Chromebook documents and work as identified in section 4 above.
- Students are highly encouraged to manage their backup data to ensure that enough space is available for school created content.

### 5.5 Software Upgrades

- Upgrade versions of licensed software/apps may become available from time to time. Students may be required to check in their Chromebooks for periodic updates.
- Students are encouraged to periodically upgrade the apps on the Chromebook if prompted. Chromebooks run Chrome OS (Operating Software) Web browser. OS updates are conducted automatically on the OS.
